MANILA CITY DIRECTORY

A Public Service Publication

Few lines of business have such a varied clientele as has the Manila City Directory. It serves high and low, rich and poor, with equal impartiality, and with profit to all.

It answers the questions What? and Who? and Where? which arise in daily business life and fills a position occupied by no other publication under the sun.

It is often used from its issue until it falls to pieces, and seldom will you find one entirely discarded while its leaves cling together.

A publication which is so universally used and whose life is so long, must appeal to every shrewd business man as a most desirable advertising medium.

Are you properly represented in this valuable medium?

In your advertising appropriation for 1942 you should include a sufficient amount to give you the representation in the Manila City Directory which the prominence and importance of your firm warrants.

SANTA MESA HEIGHTS

The Gateway of Quezon City is

A SUBDIVISION OF SENSATIONAL GROWTH

Because it

is as near to Plaza Goiti as Malate is and yet its prices are 1/3 those of Malate as low as ₱4.50 per sq. m.

is the only subdivision in Quezon City that adjoins Manila

is the first residential suburb through which the magnificent Quezon Boulevard passes

is a zonified subdivision—this guarantees comfortable homes and pleasant neighbors

is very near the two largest private universities and many schools

Our Proofs—

more than 2,200 contracts representing an area greater than 900,000 sq. m. have been sold in the short space of 2-1/2 years

more than 400 homes have already been constructed

Santa Mesa Heights is presently on a construction boom—the biggest ever experienced by any residential district

Quezon City in seeing the rapid progress of this subdivision has already constructed a public school and a modern public market
